Timber Approach Trestle Repair

Martinez, CA

Project Contacts: [William Bruin](#), [Gayle Johnson](#)

The 1,900 ft long timber-framed approach trestle exhibited damage and deterioration due to aging and required repairs to maintain the function and structural integrity. SGH developed a...

Keywords: [Marine Engineering](#), [MOTEMS audit](#), [Pier/Wharf/Boat Ramp](#), [Terminal](#)

New Marine Terminal

Richmond, CA

Project Contacts: [William Bruin](#), [Gayle Johnson](#)

Originally built in the 1950s, the timber terminal was becoming increasingly costly to maintain and was no longer considered fit-for-purpose for seismic and berthing requirements. Instead of...
